ABDELHAK LABYADH

ANGULAR FRONT-END DEVELOPER

Lisbon, Portugal | +351 910 686 127 | Abdelhak.labyadh@outlook.com
linkedin.com/in/abdelhaklabyadh | github.com/AbdelhakLabyadh

PROFESSIONAL SUMMARY

Frontend Developer specializing in Angular and TypeScript, with experience building and maintaining web and mobile applications. Currently working in an Angular environment that keeps pace with new framework versions and uses an Nx monorepo workflow. Comfortable collaborating across teams, translating requirements into user interfaces, and troubleshooting issues with a focus on maintainability and user experience.

TECHNICAL SKILLS

Angular, TypeScript, JavaScript (ES6+), Nx Monorepo, RxJS, Angular CLI, HTML5, CSS3, Responsive UI, REST API integration, Git, Jest (testing), ESLint, Prettier, Cursor AI, React, React Native, Tailwind CSS, Bitbucket, Jira, Java, XML, Node.js, Express.js, MongoDB

PROFESSIONAL EXPERIENCE

Angular Front-End Developer | July 2025 – Present

Sunrise

- Develop and maintain frontend features using Angular and TypeScript, keeping the application aligned with current Angular releases.
- Work within an Nx monorepo to organize and maintain code across shared libraries and application projects.
- Use Cursor with AI-assisted development workflows to support coding, exploration, and troubleshooting.
- Build and refine user interfaces with attention to usability, maintainability, and responsive behavior.
- Collaborate with teammates to implement requirements, investigate issues, and improve application quality.

Customer Service Representative | July 2024 – June 2025

Teleperformance — Meta project (Arabic market)

- Supported customers in the Arabic market through email, chat, and outbound calls.
- Handled complaints and escalations with a professional, empathetic approach.
- Reviewed customer feedback and worked to resolve issues and improve customer satisfaction.

Customer Service Representative | April 2024 – June 2024

Foundever — Airbnb project (French market)

- Responded to inbound customer queries and made outbound calls for the French market.
- Managed complaints and escalations while maintaining a customer-focused service standard.
- Collected customer feedback and helped resolve service issues.

Front-End Developer | May 2022 – April 2024

Sukha Technologies Inc. (Remote, Canada)

- Contributed to the “SOS Fodmap Wizard” web and mobile application project.
- Developed and maintained user interfaces and application features using TypeScript, React, and React Native.
- Worked with UX/design input to translate user needs into practical interface solutions.
- Participated in wireframe selection and collaborative product development.

IT Technician | August 2020 – May 2021

International Packaging

- Installed and monitored computer equipment and systems.
- Provided in-person and remote technical support for employee hardware and software issues.
- Performed regular updates and maintenance on company PCs.

End-of-Studies Project | February 2017 – May 2017

Mobelite, Monastir

- Designed and developed an Android application to support communication between people with disabilities and their companions.
- Built application screens and structured information flow using Java and XML.
